

Introducing LensCrafters® through Davis Vision®

An exciting enhancement to your vision network

We're pleased to share that you can use your vision benefits at any one of LensCrafters' 1,000+ store locations across the U.S.

If you're currently enrolled in vision benefits administered by Davis Vision, you now have access to LensCrafters products and exam services the same way you use your benefits at other in-network providers. To get started:

- Log into the Davis Vision member portal
- Use the Provider Locator to search for a store near you
- Once at the store, be prepared to confirm your carrier, name, and date of birth.

For the most accurate network listings, inclusive of LensCrafters and other provider additions, members should always log into the member portal and use the **Find a Provider** feature to confirm participation.

Visit davisvision.com/members to learn more about all the convenient ways you can access vision care solutions anchored in value and choice.
